

10th Conference on Health Care of the Chinese in North America

Home Health Care Issues

Nancy Chang, RN, Director, Clinical Services, Asian Network (San Francisco)

Learning Objectives:

Understand the current trends, demographics and growth in complementary healing. Discussed National Center Complementary and Alternative Medicine (NCCAM) classification system of complementary systems, approaches and modalities. Understand approaches which maximizes safety, efficacy and coordination of care for patients who wish to integrate complementary health complementary therapies with conventional therapies in the home care setting.
